Hachidori, a super sadist boss who will point out your mistakes even after your desperate efforts to come up with a business proposal, is an incredibly handsome man who makes girls turn their heads three times to check him out, and is unbelievably efficient at work. His beloved car is an imported luxury model, and to put it plainly, he's an extremely sarcastic guy. However... Amami found out by accident that Hachidori's a flaming queen. Amami puts up a struggle with no intention of losing to Hachidori, but his body reacts to Hachidori's erotic coaxing...?! At this rate, his ass virginity is...in danger!

Between painfully unpleasant,
and feeling extremely good,
which would you choose?

afterword

I've always wanted to draw a drag queen seme! This is finally published. When I drew the first three chapters, it was three years ago, and it was still an analog manuscript, how nostalgic.
About Hachidori's character: I was out having fun in Shinjuku 2-Chome and saw men who used normal words outside but when they entered the bar, they'd use drag queen lingo. Or those guys who'd normally look like sadists in suits but turned out to be drag queens. I'm so moe about that so... Hachidori's character is created from that.
I didn't get to draw much of what kinda work he actually does, but I'm happy I could draw loads of flirtatious glances.
Then, there're the heels.
Although they didn't appear in the actual story, I'm happy I could still get them on the opening page and even let him wear them on the cover.
Also, for the extra this time, I've tried doing the character encyclopedia pages.
I've drawn some bits of side jokes but I couldn't include them, so I hope you've enjoyed this a little anyways.
I was thinking about their characters and from that, decided on their birthdays (zodiacs).
Since I didn't have the chance to draw all their first times, I've put that info in their profiles.
Though it seems like Hachidori bullies and attacks Amami, he's the type who'd slowly savor Amami and of course, treasures him too (I guess).
If possible, I want to draw up till he puts that Excalibur into Amami. (^w^)
This is a new comic in a while so I'm more nervous than usual. I'd be really happy to hear your thoughts on this story.
Well then, thank you so much for reading till here.

Special thanks ♥♥♥
